

# Design & Engineering Solutions

Solutions for Design > Supply > Installation > Certification

Southlink Business Park  
Diamond® Pro Stone Cut - approx 2,800m<sup>2</sup>

100,000m<sup>2</sup> Hardstand pavement

2,000m<sup>2</sup> NFC Retaining Wall

Adbri Masonry is Australia's leading masonry manufacturer and a division of Adelaide Brighton Ltd. For over 20 years our experienced Contracting Services team has built a reputation for supporting designers engineers and contractors with proven solutions for civil, commercial and industrial projects. We specialise in Gravity, Geogrid and No Fines Concrete walls, industrial hardstand pavements and erosion control solutions.

## We can help fast track your project with:

### COMPLIMENTARY PRELIMINARY DESIGNS

Let us analyse your project requirements and our Project engineers will provide you with the optimum retaining wall, paving or erosion control solution.

### COMPLIMENTARY DESIGN SOFTWARE AND DESIGN DETAILS

We can provide you with typical design details to support your documentation. Upon request we can also provide free retaining and segmental/permeable paving design software.

### COMPLIMENTARY PROJECT COSTINGS

We have the knowledge, experience and resources to provide you with accurate project costings inclusive of supply, installation and design and construction certification.
